

In May of 1999, a group of farmers, interested residents, and business leaders organized a group to establish a comprehensive watershed program. The mission of the Alliance was, and continues to be, to improve and enhance the current water quality status within the watershed of the South Fork of the Iowa River. The South Fork, along with Tipton and Beaver Creeks, drains approximately 200,000 acres in Hardin, Hamilton, Franklin, and Wright counties. We believe our mission is a fundamental part of Iowa's overall environmental goals. Your involvement in our organization helps us create educational opportunities, provide resources, and conduct research in the South fork of the Iowa River Watershed.

Currently the group is comprised of seven board members and meets monthly to discuss and organize programs and events that can work to improve the water quality within the watershed. One of the projects underway in 2021 is in conjunction with a grant from IDALS implemented through the Iowa Water Quality Initiative to place conservation measures, such as saturated buffers, throughout the watershed at little to no cost. If you happen to own or farm a property that you think might be eligible, the group would love to talk to you!

Becoming a member is a great way to become involved in the conservation of the natural resources in the watershed and the best way to stay up to date on events, programming, opportunities, and progress being made!

BE A PART OF THE MISSION - BE A MEMBER!

Support Water Quality in the South Fork Iowa River Watershed

- Individual Member Donor: \$40.00
- Business/Sponsor \$150.00
- Additional Donation \$_____

Please select a membership level and remit this form with suggested payment by mail to

Southfork Watershed Alliance
840 Brooks Rd
Iowa Falls, IA 50126
